

GENERAL PURPOSE MDO

1-STEP

**DOUGLAS FIR PLYWOOD PANELS
EXTERIOR TYPE PLYWOOD
PAINT GRADE**

Richmond Plywood Corporation Limited (Richply®) produces an economical option for General Purpose MDO panels. **General Purpose MDO 1-Step** is Exterior grade plywood that can be machined, painted, and is structurally stable. These panels share many of the same attributes as our Armorbond® 2-Step. Richply® plywood products are manufactured in Canada.

General Purpose MDO 1-Step is manufactured with a face veneer of Douglas fir, a “C” grade 2-piece composed core and a “C” grade back veneer. The panels have a phenolic (non-urea) resin impregnated overlay, bonded to the wood by heat and pressure. The resin content is 28%.

Dimensions and Packaging

Thicknesses (mm)	Number of Plies	Packaging (Panels/Unit)
9.5 / 3/8"	3/4	88
12.5 / 1/2"	5	66
15.5 / 5/8"	5	53
17 / 11/16"	7	50
19 / 3/4"	7	44

*1-Side approximate weight 3200 lbs/unit. Add 100 lbs/unit for 2-Sides.

Care and Handling

- Store indoors in clean, dry, well-ventilated conditions.
- Do not store panels directly in contact with the ground.
- Stack no more than four or five units on top of one another and separate units with dry, clean spacers that are uniformly thick and properly aligned. A minimum of three spacers must be used for 8-foot panels.
- Do not store panels in extreme temperatures or moisture conditions. Allow panels to acclimatize for at least 72-hours prior to installation.

Painting

For painting instructions for **General Purpose MDO 1-Step**, follow the paint manufacturer's instructions and see our Armorbond® 2-Step brochure.

Richmond Plywood is a member of the Canadian Plywood Association (CANPLY) and all production is subject to CANPLY's stringent quality control procedures CSA-0121.
